

Process Heating Solutions Worldwide

Steam Injection Liquid Heating System

Superior Performance By Design

Fabricated Heater

Features & Benefits

Pick Heaters, Inc. provides customized fabricated heaters for applications that go beyond our standard model offerings.

- Fabricated Heaters with larger pipe sizes (up to 36" pipe) can accommodate higher liquid flow rates up to 25,000 gallons per minute.
- High pressure class (ANSI and DIN) ratings are available (up to class 1500 PSI flanges). ASME B31.3 construction is standard. Optional U-Code Stamp is available.
- Heaters can also be made in special alloys or materials, such as Hastelloy, Duplex 2205, Killed Carbon Steel, Inconel, Titanium, Alloy 20, etc.
- Pick Fabricated Heaters can be designed for various port locations to fit in-line or with 90° elbow configuration.

Applications:

- Anaerobic Waste Activation
- Reactor Heating/Cooling
- Pellet Water Heating
- Alumina Slurry
- Condensate Mixing
- Blanchers
